

x indicates features tested in each project. All these tests are successful (no failure)

	Observation types				Model types			Dose regimen			Data specificity					Tasks					Plots with simulations		Parameter with variable	
	Continuous	Discrete	Event	Single output	Multiple outputs	from library	Expression/ODEs	DDEs	No dose	Single dose	Multiple doses	Censored data	Covariates	Occasions	Regressors	Control and events	Data formatting	Population parameter estimation	EBeS	Conditional distributions	Standard errors	Likelihood	Plots	Plots with simulations
